

# Kwik-Step - Ordering & Delivery

Measure the site and send us a drawing with the length and gradient of each slope - ideally with photos of any key features

We will email a drawing showing the proposed configuration - with a quote for the components

Call us to discuss any amendments - then place the order

We will despatch the components from stock. They will normally be delivered within 3-4 working days from receipt of order

Tel: 0117 929 1400
